

Before creating the WordPress website, I first designed a detailed wireframe in Figma for a coffee shop brand called **“Wake Up Coffee.”** This concept focuses on offering a global coffee experience—featuring a variety of coffee types from around the world. The brand aims to create a **warm, inviting atmosphere** where expertly brewed coffee and fresh pastries provide the perfect space for **relaxing, studying, or catching up with friends** at any time of day.

For the website design, I used **#EADDDF** and **#54685C** as the primary background colors, complemented by **#22201C** and **#FCFAFB** for text. The typography choices were carefully selected to balance style and readability: **“Apparel Display Light”** for main headings to give a modern, elegant look, and **“Applied Sans Pro Condensed”** for smaller body text to ensure clarity and legibility.
